Portfolio: <https://tmcg1998.github.io/portfolio-v2/>

## SUMMARY

Full Stack Web Developer with a background in customer service and dedication to problem solving. Earned an Associate's Degree in Computer Information Systems and a certificate in Full Stack Web Development from Columbia University Coding Boot Camp. Known among staff and cohort for strong will to succeed and commitment to learning. Strong ability to self-teach to maneuver new challenges.

## TECHNICAL SKILLS

JavaScript, CSS, HTML, JQuery, Bootstrap, SQL, Sequelize, GitHub, MySql, Express, Node.js, API development/integration

## PROJECTS

**Socialmoodia** | <https://github.com/infojunkie01/socialmoodia>

- Summary: This website simulates a social media website where a user can only make posts that contain emojis.
- Role: Worked mostly on front end routing, but also helped set up database connections, server connections as well as backend routing and helped troubleshoot bugs team members encountered.
- Tools/Languages: JavaScript, Node.js, Express.js, Sequelize.js, Handlebars, bcrypt, Heroku

**Off-the-Hook** | <https://github.com/jonghwa101/off-the-hook>

- Summary: This is a simple website that calls on external APIs to allow a user to generate excuses and memes.
- Role: Calling to the external API's and displaying their results to the user on the website
- Tools/Languages: JavaScript, HTML, CSS

## EXPERIENCE

### Sales Associate

#### Manhattan Beer Distributors

**2021-Current**

**Suffern, NY**

*Working in a small team to complete tasks across a large area of different stores in a day required more focus on communication as well as time management and a strong work ethic to complete a day of work in an efficient manner. Throughout the day a strong emphasis was also placed on organizational abilities in order to deal with product displays, along with keeping backstock easily accessible.*

**Sales Associate  
Target**

**2019-2020  
West Nyack, NY**

*As a sales associate for Target a large focus was placed on customer service and helpfulness. Associates were expected to be able to aid customers in finding what they were looking for regardless of department. We were given tools to aid in individual help, as well as communication devices to reach out to other experts on the team.*

**Customer Service, Bookkeeper  
Shoprite**

**2016 – 2018  
New City, NY**

*Being in customer service meant utilizing a great deal of communication with both customers, as well as other team members. Clear communication with the customer to understand what their needs were would then be either transferred to speak to certain team members who specialize in what the customer would need, or using problem solving abilities to help the customer without the need to involve any other team members. Bookkeeping relied more on personal responsibility and attention to detail in order to make sure no errors had occurred on any given day.*

**EDUCATION**

**2022 Boot Camp Certificate** Columbia University, New York, NY

A 24-week intensive program focused on gaining technical programming skills including but not limited to HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS.

**2018 Associate's Degree (Computer Information Systems)** Rockland Community College, Suffern, NY
